LUXURY HOSPITALITY

PROCUREMENT DEPARTMENT

SEARCHING FOR INNOVATIVE SOLUTIONS

FOR LUXURY HOSPITALITY

Our HFC PROCUREMENT activity aims to find and select the best manufacturers of the most cutting-edge, innovative solutions, products and services, geared towards the customer experience and the comfort of your employees.

The current health crisis has shown the astonishing fragility of our social and economic model. For each of us, the challenge today is to put in place a reassuring marketing model, a global response intended to maintain the confidence of our customers who have all lived and continue to live a fairly anxyogenic period.

The implementation of more advanced hygiene solutions is now part of our daily life and will now be part of our life.

Here we offer a selection of the best European products and manufacturers of hydroalcoholic gel dispensing terminals to install in your hotels.

NEW GESTURES, NEW STANDARD

HYDROALCOHOLIC GEL DISPENSING TERMINALS

All the products represented in this document and that we distribute, have been tested by our HFC PROCUREMENT team

- ✓ In line with your level of clientele

Hydro-alcoholic sanitizer dispensing terminals

 **DISPLAY MEDIA**

 **HYDROGESTE**

Manufactured in La Rochelle, France, the HYDROGESTE bollards are robust, reliable and very well finished.

They also have a 3-year warranty.

Available in 3 versions, wall, totem and without screen (gel distribution at the foot), these terminals represent a perfect solution for the health security of your guests and your collaborators.

RECYCLABLE

Hydro-alcoholic sanitizer dispensing terminals

PERSONALIZED "AT YOUR IMAGE"

In series, the Display Media terminals are white for the terminals with digital screen and black in the manual version. These terminals are partially or fully customizable: choice of color with RAL (EPOXY paint) in mat or glossy finish // Sticking according to your logo or graphic charter // Covering: Leather, Wood, Carbon, Gloss, Marble, Gold leaf , ... // Laser cutting & LED backlighting // LED strip // ...

Total tailor-made projects

The TOTEM and MURALE HD screens are multimedia and can accommodate all formats of images, videos, .. Basically, the easiest way to stream content is to plug a USB memory stick into the back of the monitor. The terminal will then broadcast, automatically and in a loop, the content (s) present on the key. In the event of a fleet, the terminals can be controlled by a dynamic display solution (CMS) allowing remote management of the different content to be broadcast.
