“Wellisair is an innovation made in Barcelona that purifies the ambient air of all viruses, bacteria, allergens, molds and even odors, making the air absolutely pure!

Wellisair not only represents a perfect solution for disinfecting hotel rooms, F&B spaces or reception desk area, but its technology allows the air to be purified by a natural reaction, no deposits, no chemicals, 100% natural.

Wellisair technology generates abundance of the natural air purifying substance OH, at an eco-friendly level of clean area, by adopting nature's air cleaning methods.

What is OH (Hydroxyl Radical)?

OH (Hydroxyl Radical) is a powerful purifying substance that is generated naturally by sun light, ozone, and moisture in the air, and it harmlessly disappears along with other air pollutants.
